Associate members may begin making their reservation starting March 26, 2010.

Members, as some of you may already know we lost a well pump in C-section on Saturday. We have had it replaced and as of Thursday, the bathhouse and laundry are back open. There still may be bouts of brown water coming in from time to time until it has had time to process it out of the pipes and equipment. A-section bathhouse was open during this inconvenience and will remain open from this point on. A-laundry will open back up on Friday March 5, 2010.

Construction work has started for the railroad project which we are doing this season. They will be working on it throughout the weekend and on up through the middle of next week. In doing so they have downed several trees. These trees have been hauled to the left hand side of farmhouse storage. These felled trees are available for members to cut up and use for firewood. Please take what you can cut up and haul. Any questions, please see me or Maintenance. I am looking for a few volunteers to put together some picnic tables the weekend of March 12th.

On Thursday March 11, 2010, we will resume operations at the main POA office. We will be moving our equipment back over on Tuesday, while the POA is closed.

The next BOD meeting is tentatively scheduled for March 20, 2010 at 9:00 AM. The Maintenance Staff has returned to work and has started working on the projects that were earmarked for this year. Again, sometime in March we would hope that some members would volunteer to help with the reconditioning of the picnic tables.

Stacey has posted the tentative calendar for the 2010 season on the website. It is there so that you may plan your weeks at the Resort. I am looking forward to a good spring and summer and as you can see we have some of our activities back for this year. Any other opportunities that you feel we could take advantage of, please feel free to contact me.

Remember that all Maintenance Dues are due March 1, 2010 and become late on April 1, 2010. Those members wishing to take advantage of the payment plan, must submit the necessary form with their first payment by March 31st in order to participate. Also, those members whom wish to take part in the amnesty program for the 2009 season, must contact me and sign the appropriate documents and pay the 2010 dues by March 31st. If any members have any donations for the weight/training room of equipment, that we are trying to get ready, please see me as well.

A reminder that C-bathhouse will be immediately closed Monday, April 5th for approximately 2 weeks for certain renovations.

— John R. Barnes

ATTENTION

Deadline for turning in your bio's is March 20, 2010 at 12:00 PM

NOTES FROM SECURITY

Remember you must spend two separate 24-hour periods a month to meet your compliance. Failure to make compliance will result in a loss of your winter reservation and you will not be able to make winter reservations for next year until the day that winter camping starts. The monthly period runs from the first of that month until the last day of that month

When you are checking out you must unplug all electric from the box. Failure to unplug will result in a "fail to unplug fine" of \$250.00 and the loss of your winter reservation. Remember the 14-hour rule!!

I would like to remind you that the resort has had a long standing rule that you may not park your vehicles on an adjacent site even if that site is vacant. You must park your vehicles either on your site or in one of the overflow parking lots. We still have people coming in for reservations and if you are parked on their site it causes problems.
